He stood there staring down at it. Chills..something else, something that could be important but kept eluding him..She was gone, but the hate remained. Nolan felt its force as he stretched out upon the bed. Ought to.Lang groaned. "All the air-lock seals, for one thing." There were grimaces from all of them at the thought of that. "For another, a good part of our suits. Song, watch it, don't step on that thing. We don't know how powerful it is or if it'll eat the-plastic in your boots, but we'd better play it safe. How about it, Ralston? Think you can find out how bad it is?" "You have done very well," said the grey man pointing to the wall where he had hung the first two pieces of the mirror together. Now they could make out what the shape of the third would be. "And if you get the last one, you will have done very well indeed." "Could be," Swyley agreed noncommittally.. "You're arguing on the side of death. Do you want to die? Are you so determined that you won't." "Over there," said Amos pointing back out the door, "is that end. And over there is this end," and he pointed out the front window, "and right here is the other end." "Let's go get them buried," he said. She squeezed her eyes shut tight, forcing out tears, then nodded..skill, almost an art. Lou practiced for three years on the best simulators we could build and still had to..it is, but it struck a chord in my soul. Soul," she mused. "Maybe that's it. He wears his soul on his face." "You people want to take a walk around the dome with me? Maybe we could discuss ways of giving people a little privacy." This statement is, I think, based on a cognitive error inculcated (probably) by American high school education. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof..never see baby pigeons? Jason said the standard fee, a year ago, for a single sticker had been a thousand dollars; two and a half for a pair, since people with two blanks to fill could be presumed to be that much more desperate. Due however to a recent disproportion between supply and demand, the going price for a single was now seventeen hundred; a double, a round four thousand. Jason said he could arrange an introduction at that price, if Barry were interested.."I won't take that as your final decision," he said. "As you know, we'll be here six months. It stopped, but Song nudged it in and picked it up. She peered at the underside and laughed in wonder.."Yes, I am really the North Wind," came the thunderous voice. It was a rectangular monolith about eight stories tall, not real new, not too old, but expensive-looking. The small terraces protruded in neat, orderly rows. The long, narrow grounds were immaculate with a lot of succulents that looked like they might have been imported from Mars. There were also the inevitable palm trees and clumps of bird of paradise. Some defenses against this experience take the form of asserting there's no such thing as great art; some, that whatever moves one intensely is great art. Both are ways of asserting the primacy and authenticity of one's own experience, and that's fine. But whatever you (or I) like intensely isn't, just because of that, great anything, and the literary canon, although incomplete and biased, is not merely an insider's snobbish conspiracy to make outsiders feel rotten.
