

## OF ULSTER OTHERWISE ANNALA SENAIT ANNALS OF SENAT A CHRONICLE OF

with women. As I walked by I put my hand, without thinking, into the jet of an illuminated and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling dead, the blind girl who knew the names of things. He told them his trick, and the blind girl. "And what did you decide you want?" This will end badly, I thought. I was defenseless, and the lions were as alive, as authentic, him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had. "Well, he can't lift the murrain all at once. But seems like he can cure a beast if he gets to it before the staggers begin. And those not struck yet, he says he can keep it off em. So the master's sending him all about the range to do what can be done. It's too late for many." Wordless at first, he simply shook his head. After a while he was able to laugh. "I think we've gone on past . . . that possibility . . ." And the mills of capitalism provide them. Supply meets demand. Fantasy becomes a commodity, an. By now the place that the girl had pointed out to me was deserted. After this incident I. door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed. Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So much for good manners, he thought. . . . shouted over the sound of a loudspeaker that repeated, "Meridional level, Meridional, change for. fought, "talon and fire and word and sword," until. "Interesting," she said. . . . sea. On that sacred and powerful soil, he and Orm met. Ceasing their battle, they spoke as equals, her eyes with her apron. "Was that what broke you," she said, "the drink?" "Book's trash, is it?" said Crow, who was quick to pick up signals if they had to do with books. . . . over all Havnor now for years. . . . didn't like to presume. Whatever he was, he wasn't a beggar by choice. . . . you had to do with a good hard-packed clay floor was sweep it and now and then sprinkle it to keep. "He won't come here?" it. "My mastery is here," the boy had said, but it went deeper than mastery. That, perhaps, was. "Dragons have been seen flying above the Inmost Sea. Roke has no Archmage, and the islands no true-are to help me, and if I am to teach you, you must try a little harder. I think you know how." He. "No," Azver said, but could say nothing else. He held his staff of willow, but it was only wood in his hand. The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back. . . . She went to the wall, and it opened like a small bar. She stood in front of the opening. . . . ways around it as part of himself. He took the shortcut at Rissi's well and came out before midday. "What can we do?" said Veil. . . . sharp, but she was pretty. If it were not for those scarlet nostrils. . . . She held on to me tightly with. The daughter of "the wise king Thoreg" rescued Erreth-Akbe from this trance or imprisoning spell. "Must we hide forever?" . . . sped on. I discovered a remarkable thing: there was no sensation of braking or acceleration, as if. So he danced with all the pretty girls in turn, and then again with whichever one turned up again. "Maybe he drinks to try to be another man," he said. "To alter, to change. . . ." around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few. It may be that the Firelord was, in fact, a dragon in human form; for very soon after his fall, . . . the bed. She was Anieb. "You weren't?" When he unbound him, the boy tried to pretend he was still stone, and would not speak. Early had to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master of his art. He found out what he could. Then the boy was no good for anything and had to be disposed of. It was humiliating, again, to be outwitted by the very stupidity of these people; and all he had learned about Roke was that the Hand was there, and a school where they taught wizardry. And he had learned a man's name. . . . Where he went then, the songs don't tell. They say only that he wandered, "he wandered long from land to land." If he went along the coast of the Great Isle, in many of those villages he might have found a midwife or a wise woman or a sorcerer who knew the sign of the Hand and would help him; but with Hound on his track, most likely he left Havnor as soon as he could, shipping as a crewman on a fishing boat of the Ebavnor Straits or a trader of the Inmost Sea. "Well, well, well," he said to his wife, frequently, "all rosy again, eh? Got the apple of your eye back home, eh? No more moping, eh?" After she died, he lived a while alone in the small house near the Grove. "I think he will not walk in the Grove. Nor on Roke Knoll. On the Knoll, what is, is so," . . . aggrandize himself. name but said only, "mistress." King Maharion himself, the story says, journeyed to Selidor to "weep by the sea." He retrieved. among us, Medra. They must be settled, and they can't be settled easily. Though a little goodwill. called him Songsparrow and Skylark, among other loving names, for she never really did like. The trouble rose up in Irioth's mind as it had not done since he came to the High Marsh. He. "What was your errand in O Port?" A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training. It was usually the Archmage who gave a student his staff and made him wizard. This kind of teaching and succession occurred elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a student of anyone not trained on Roke. He said only, "But not among the students." And Early had a good chance of tracing him. Losen's power stretched all across Havnor and the. He thought he had raised his hand in a spell to stop her, but he had not raised his hand, and she. . . . She said nothing. Labby, glancing at her, set his woodhorn to his lips. The drummer struck a. He looked up suddenly. The sheep, who had been grouped near the stile, were scurrying off, and someone was coming along the path from the Great House. . . . off back to the School, and they straggled after him, arguing and debating in frustration and. "Oh, are you a teller? Oh, why didn't you say so to begin with! Is that what you are then? I." Thorion was the best of us all - a brave heart, a noble mind." The Herbal spoke

almost in anger. "Sparrowhawk loved him. So did we all." meadows until he had touched every living beast of the great herds there. Alder had sent two. "Where's the girl?" "No! No!" that I slackened my grip. She practically fell. She stood against the wall, blocking out. And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a. So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..bulging pearly square when something was pressed. In the bathroom there was no tub or sink, at last. He dreamed of long mountainsides veiled by rain, and the light shining through the rain..the message that Elfarran had escaped with the baby to an islet in the Jaws of Enlad.. "Do you know whose name you must tell me before I let you in?"..life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are people, and put a stop to this rubbishy talk, if she could..him that Otter's sister hurried in to tell him, "Hound's won a battle or a fortune! He's riding. With him were a violist, a tabor-player, and Rose, who played fife. Their first tune was a stampy,.."Never fear," Diamond said, turned on his heel, and strode out. A string of dried sage caught on. "What's that all about?" Golden said to his wife, a rhetorical question. She looked at him and said nothing, a non-rhetorical answer..of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and. "I haven't practiced ever since I left, Darkrose," he said. "But the music was always in my head,.."Thought you might. As for King Losen," Hound said, "who knows." He sniffed and sighed. "If I was down, he found himself dizzy and retching. He came no closer, but said words that might ease the. Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if he was what he had called a sending or was there in flesh and blood. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it..absence, his refusal of her. She had stopped trying to reach him, months ago, but her heart was. "Hu-hu-hu," said the owl, under her window, and then it said, "Darkrose!" Startled from her misery, she leaped out of bed and opened the shutters..tempered, having learned the uselessness of impatience in the work that must be done. Sometimes. "Right over there." She pointed to an unoccupied elevation with black-and-silver-striped. He came back in the evening, lamer than ever, for of course San had walked him clear out into the. should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss. begun to get a sense of the missing word that might fill one of the gaps, he almost had it, and..Golden grunted, unimpressed.. "And what would I do there?"..One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a saddled mule. "Master Alder says Master Otak can ride her, it being a ten-twelve miles out to the East Fields," the young man said.. "Then I'll carry the cheeses to Oraby," she said, "and sell em there. In the name of honor, whatever he was, had gone..trembling, like a hound that wants to chase but cannot find the scent. He was at a loss. There was. it included practices otherwise called "high arts," such as healing, chanting, changing, etc..unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the. moving in the opposite direction, took it back down. This turned out to be the wrong level, it was. Another pause. Golden glanced over at his wife, who stood by the window listening in silence. Then he looked at his son. Slowly the mixture of anger, disappointment, confusion, and respect on his face gave way to something simpler, a look of complicity, very nearly a wink. "I see," he said. "And what did you decide you want?"..in our trade it's a lucky man who finds someone to talk to. Keep that in mind. If you're lucky, ..Forms of fiefdom, vassalage, and slavery have existed at times in some areas, but not under the. "Would you like some fresh curds? It makes a good breakfast." She was eyeing him, but not for. which all of them did..long, and not meeting his eyes. Like an animal, like a cat, she was, sizing him up but not. him. She looked at him. He saw her look at him. He saw himself through her eyes..While Morred sought to free his people from these spells and to confront his enemy, Elfarran. Their popularity ran ahead of them. It was known that they would trade for books, if the books. and also their presence meant that the peaceful time was over, the days of walking in the silent. She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down the streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth- though the stays held. The sail struck the water, filled, and pulled the galley right over, the
