"Gully," he named himself after a pause, and she thought it was a name he had made up to call himself. It did not fit him. Nothing about him fit together, made a whole. Yet she felt no distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in him, the way he spoke of the animals. He would have a way with them, she thought. He was like an animal himself, a silent, damaged creature that needed protection but couldn't ask for it. A child ran bawling to its mammy. No one else was about. But Early turned his head, still with something of the eagles quick, stiff turn, staring. Wizard knows wizard, and he knew which house his prey was in. He walked to it and flung the door open. days. The girl motioned them to come in. Crow chose to wait outside. The room was high and long, with traces of former elegance, but very old and very poor. Healers' paraphernalia and drying herbs were everywhere, though ranged in some order. Near the fine stone fireplace, where a tiny wisp of sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed nothing but bone and shadow. As Tern came close she tried to sit up and to speak. Her daughter raised her head on the pillow, and when Tern was very near he could hear her: "Wizard," she said. "Not by chance." "I can't call you." Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done irreparable harm. Men and women and children had died because he was there. They had died in torment, burned alive. He had put his sister and mother in fearful danger, and himself, and through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used him as he was said to use people, emptying their minds like little sacks, then everyone on Roke would be exposed to the wizards power and to the might of the fleets and armies under his command. Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to Wathort. Maybe that man, too, had thought he could do no harm.. "Yes," said Ember. "We must hide, and forever if need be. Because there's nothing left but being killed and killing, beyond these shores. You say it, and I believe it." "I didn't say anything wrong," I defended myself. "I only wanted to know. . . Why are you. and she put her hand on his forehead. He opened his eyes, looking straight into hers without. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry." .Terminal, pale against the black sky, still showed through the branches, then finally disappeared,.shadows of the leaves..Instinctively I rubbed my hand on my trousers. Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? Maybe that's what the Masters are afraid of. Maybe celibacy isn't as necessary as the Rule of Roke teaches. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves. Leaving out women, leaving out everybody who won't agree to turn himself into a eunuch to get that one kind of power ... Who knows? A she-mage!
