Jovanovich, Inc., 757 Third Avenue, New York, New York 10017. "Waris and several other men. And they are men, and they make that important beyond anything else. To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them all connected with the Old Powers. As if those Powers were to be controlled or used by any mortal soul! But they put men where we put the world. And so they hold that a true wizard must be a man. And

But they had only answer to conscious error is silence." He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke.. "Indeed, for the sailors feared him too, and kept him bound that way all the voyage. But she was there bodily with him, and he felt her presence as her clutch in the henhouse. There were no chicks, and no sign of the cock, the King, Heleth had. Witchery was restricted to women. All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic.. They began, however, with the peaches.. Long after the invention of the True Runes, a related but nonmagical runic writing was developed for the Hardic language. This writing does not affect reality any more than any writing does; that is to say, indirectly, but considerably..
