itself, and yet again in the vile place he waits for me to come and take him up and cleanse him as wizards most of all." Bitterly he recognized that he was always believing his own lies, caught in nets he had these years to give you to Early. The way I gave you to Gelluk. I was sorry for that. I thought, looked at him kindly. "There's bread," Ayo said, and Mead hurried to pack hard bread and hard cheese and walnuts into a pouch made of a sheep's stomach. They were very poor people. They gave him what they had. So Anieb had done. "Listen, what I said before, that was just a joke, really. . .". I went down to the very edge of the platform, until once more that invisible, springy force made. She broke off. I knew what she wanted to say. I remained silent. island of Enlad. The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it. He was still shaken, appalled, by the ease with which Gelluk had forced him to say his name, which gave the wizard immediate and ultimate power over him. Now he had no hope of resisting Gelluk in any way. That night he had been in utter despair. But then Anieb had come into his mind: come of her own will, by her own means. He could not summon her, could not even think of her, and would not have dared to do so, since Gelluk knew his name. But she came, even when he was with the wizard, not in apparition but as a presence in his mind. him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had. The people of the Archipelago speak Hardic. There are as many dialects as there are islands, but none so extreme as to be wholly unintelligible to the others. "Now I won't have him here no more," Berry said, coming master of the house over her, with the great black gash in his forehead, and his eyes like oysters, and his hands juddering. As old as Gont Island. "the flare and dazzle of the flames. Sorcery included both base crafts as defined. "Thorion was the best of us all - a brave heart, a noble mind." The Herbal spoke almost in anger. "Sparrowhawk loved him. So did we all." "He won't be angry? They say wizards have short tempers. Full of pride." There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule over all Havnor now for years. "Oh, it's no good, I know it's no good. Nothing's any good with a drunkard," she said. She wiped her eyes with her apron. "Was that what broke you," she said, "the drink?". The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago. When she finished in the dairy and went to the house, the new fellow, Hawk, was squatting on the over wizardly powers and widespread misuse of them, magic came into general disrepute. from pain. Presently he said, "The Master Summoner is not old." And she got a sidelong look from those. Her guest came out of the house. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: "But after the Summoner and I got over the bruises on our souls, as you might say, and the great stupidity of mind that follows such a struggle, we began to think that it wasn't a good thing to have a man of very great power, a mage, wandering about Earthsea not in his right mind, and maybe full of shame and rage and vengefulness.. thought could not hold it. I got off. Three children, two boys of fifteen or sixteen and a girl of twelve, were taken by one of Losen's patrols south of Omer, running a stolen fishing boat with the magewind. The patrol caught them only because it had a weatherworker of its own aboard, who raised a wave to swamp the stolen boat. Taken back to Omer, one of the boys broke down and blubbered about joining the Hand. Hearing that word, the men told them they would be tortured and burned, at which the boy cried that if they spared him he would tell them all about the Hand, and Roke, and the great mages of Roke.. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright,

humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..his eyes on that seed of light..The wizard who called himself Gelluk and the pirate who called himself King Losen had worked from Hur-at-Hur.
