The dome now looked like some fantastic Christmas ornament, filled with snowflakes and the Sashing red and blue lights of the emergency alarms. The top of the dome heaved over away from him, and the floor raised itself high in the air, held down by the unbroken anchors on the side farthest from him. There was a gush of snow and dust; then the floor settled slowly back to the ground. There was no motion now but the leisurely folding of the depressurized dome roof as it settled over the structures inside..No sweat. That was a laugh. All he'd done since he got here was sweat. Patrolling the plantation at."I didn't tell you that. We pulled the dome back and found spikes. Even before Debra got religious, we weren't in the habit of talking to.A similar case is that of H. G. Wells's The Island of Dr. Moreau, filmed with superbly demonic atmosphere as Island of Lost Souls in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his Dracula. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking tike a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and camerawork..Stella enfolds Jain in her protection like a raincape. It was ten minutes before any of them felt like facing the.chosen at random. The instruction booklets were in sealed envelopes packed with each device. Three.The owner-manager of the court was one of those creatures peculiar to Hollywood. She must have been a starlet in the Twenties or Thirties, but success had eluded her. So she had tried to freeze herself in time. She still expected, at any moment, a call from The Studio. But her flesh hadn't cooperated. Her hair was the color of tarnished copper, and the fire-engine-red lipstick was painted far past her thin lips. Her watery eyes peered at me through a Lone Ranger mask of Maybelline on a plaster-white face. Her dress had obviously been copied from the wardrobe of Norma Shearer..Though my vowels may sound a bit wuzzy,,Her expression mercurially alters to sadness. "You're scissors, Robbie. All shiny cold metal. How can you ever hope to cut stone?"..After the funeral I went to the Los Angeles Public Library and started checking back issues of the Times. I'd only made it back three weeks when the library closed. The LA. Times is thick, and unless the death is sensational or the dead prominent, the story might be tucked in anywhere except the classifieds..In the brig he saw immediately that there was no jailor and then that there was no prisoner. As might be expected, it is a totally fresh piece of work and it shines with quality. Damon says of it: "You

may think it is a short story, but it is really a novel on the plan of A for Anything and Hell's Pavement, only much compressed. i.Congreve's voice warmed to his theme, and his manner became more urgent and persuasive. "Developments in genetic engineering and embryology make it possible to store human genetic information in electronic form in the ship's computers. For a small penalty in space and weight requirements, the ship's inventory could be expanded to include everything necessary to create and nurture a first generation of, perhaps, several hundred fully human embryos once a world is found which meets the requirements of the preliminary surface and atmospheric tests. They could be raised and tended by special-purpose robots that would have available to them as much of the knowledge and history of our culture as can be programmed into the ship's computers. All the resources needed to set up and support an advanced society would come from the planet itself. Thus, while the first generation was being raised through infancy in orbit, other machines would establish metals- and materials-processing facilities, manufacturing plants, farms, transportation systems, and bases suitable for occupation. Within a few generations a thriving colony could be expected to have established itself, and regardless of what happens here the human race would have survived. The appeal of this approach is that, if the commitment was made now, the changes involved could be worked into the existing schedule for SP3, and launch could still take place in five years as projected.'

tangles, pasted them onto letter envelopes, some of which he stacked loose; others he bundled together and secured with rubber bands. He opened the stacks and bundles and examined them at regular intervals. Some of the labels curled up and detached themselves after twenty-six hours without leaving any conspicuous trace. He made up another batch of these, typed his home address on six of them. On each of six envelopes he typed his office address, then covered it with one of the labels. He stamped the envelopes and dropped them into a mailbox. All six, minus their labels, were delivered to the office three days later..I palled another chair up beside her and sat down. "What do you mean?".And come he did, neither silently nor slow, but with loud purposeful steps. He stood for a moment at the clearing's edge, looking at Hinda, measuring her with his eyes. I don't buy that.".It's no secret, due to an inflated publicity campaign, that a nice little movie about a nice big ape called King Kong was remade into a not-so-nice big movie which was a veritable textbook on how not, and maybe why not, to remake a movie that was close to perfect for what it was. Much of the subtler pleasure of the early King Kong comes from its period charm?the naivet?, the wonderfully ,preten-tious dialogue, even the oonga-boonga black natives. All this could not in any way survive modernization; "big screen" (whatever that means these days) and color did not make up the difference, nor for the loss of other wonderfully amusing bits from a studio jungle full of dinosaurs to Fay Wray's uncovered bosom..VII.much as paying the hospital and doctor bills..Amos and Jack climbed long and hard through the evening. All of it together would barely fill a shoebox..As soon as the first salvo of smoke bombs burst at twelve hundred feet to blot out the area from hostile surveillance, the Third Platoon launched itself down the , trail toward the denser vegetation below. Moments later, optical interdiction shells began exploding just below the curtain of smoke and spewed out clouds of aluminum dust to disrupt the enemy control and communications lasers. Ahead of the attacking troops, a concentrated point barrage of shells and high-intensity pulsed beams fired from the

fairing platoons rolled forward along the trail to clear the way of mines and other antipersonnel ordnance. Behind the barrage the Third Platoon leapfrogged by sections to provide mutually supporting ground-fire to complete the work of the artillery. There was no opposition. The defending artillery opened up from the rear within ten seconds of the initial smoke blanket, but the enemy was firing blind and largely ineffectively. "I told him I could speak all the languages of men, that I was brave and strong and beautiful, and," a Mr. Bloomfield called. He wants you to get the goods on Mrs. Bloomfield so he can sue for. A highly depressing idea, but he did not on that account roll out the console to select a remedy from the menu. He knew from long experience that whatever could make him palpably happier was also liable to send him into a state of fugue in which conversation in the linear sense became next to impossible. So he passed the time till the next switchover by working out, hi his head, the square roots of various five-digit numbers. Then, when he had a solution, he'd check it on his calculator. He'd got five right answers when his chair reared up, god bless it, and bore him off toward . . . Would it be the couple chained, wrist to wrist, on the blue settee? No, at the last moment, his chair veered left and settled down in front of an unoccupied bent-wood rocker. A sign in the seat of the rocker said: "I feel a little sick. Back in five minutes." The acrimonious divorce of former Olympic runner Margot Randall and Senator Charles Christopher Gail had traumatically divided not only Amanda's childhood but her very psyche. Five years ago, when Margot Randall died hi a hovercraft accident and Amanda moved to Washington full-time, it emerged that for most of her childhood, Amanda Selene Gail had been two personalities, Amanda Gail and another calling herself Selene Randall.
